

NEURO- TECHNICIAN TRAINING

Learn to Integrate
Neurotherapy into
Practice

WWW.STABLERROOTS.CA

WHY NEUROTHERAPY?

Neurotherapy is an evidence-based approach that supports nervous system regulation, brain function optimization, and trauma healing through neurotherapy and brain-based interventions.

At Stable Roots, we integrate neurotherapy within our neuro-relational and attachment-based framework, recognizing the deep connection between the brain, body, and relational safety.

WHAT YOU'LL LEARN IN THIS TRAINING

- Understanding Brain Function & Neuroplasticity – How neurotherapy supports mental health and trauma recovery.
- Learn the fundamentals of collecting EEG and ERP data for analysis
- Practical Hands-On Training – Operate neurotechnology equipment, conduct brain mapping, and assist in neurotherapy sessions.

WHAT YOU'LL LEARN IN THIS TRAINING

(cont)

- Ethical & Relational Considerations – Apply a trauma-informed, client-centered lens to working with neurotherapy clients.
- Integrating Neurotherapy into a Clinical Setting – Learn how Neuro-technicians support clinicians in delivering brain-based interventions.

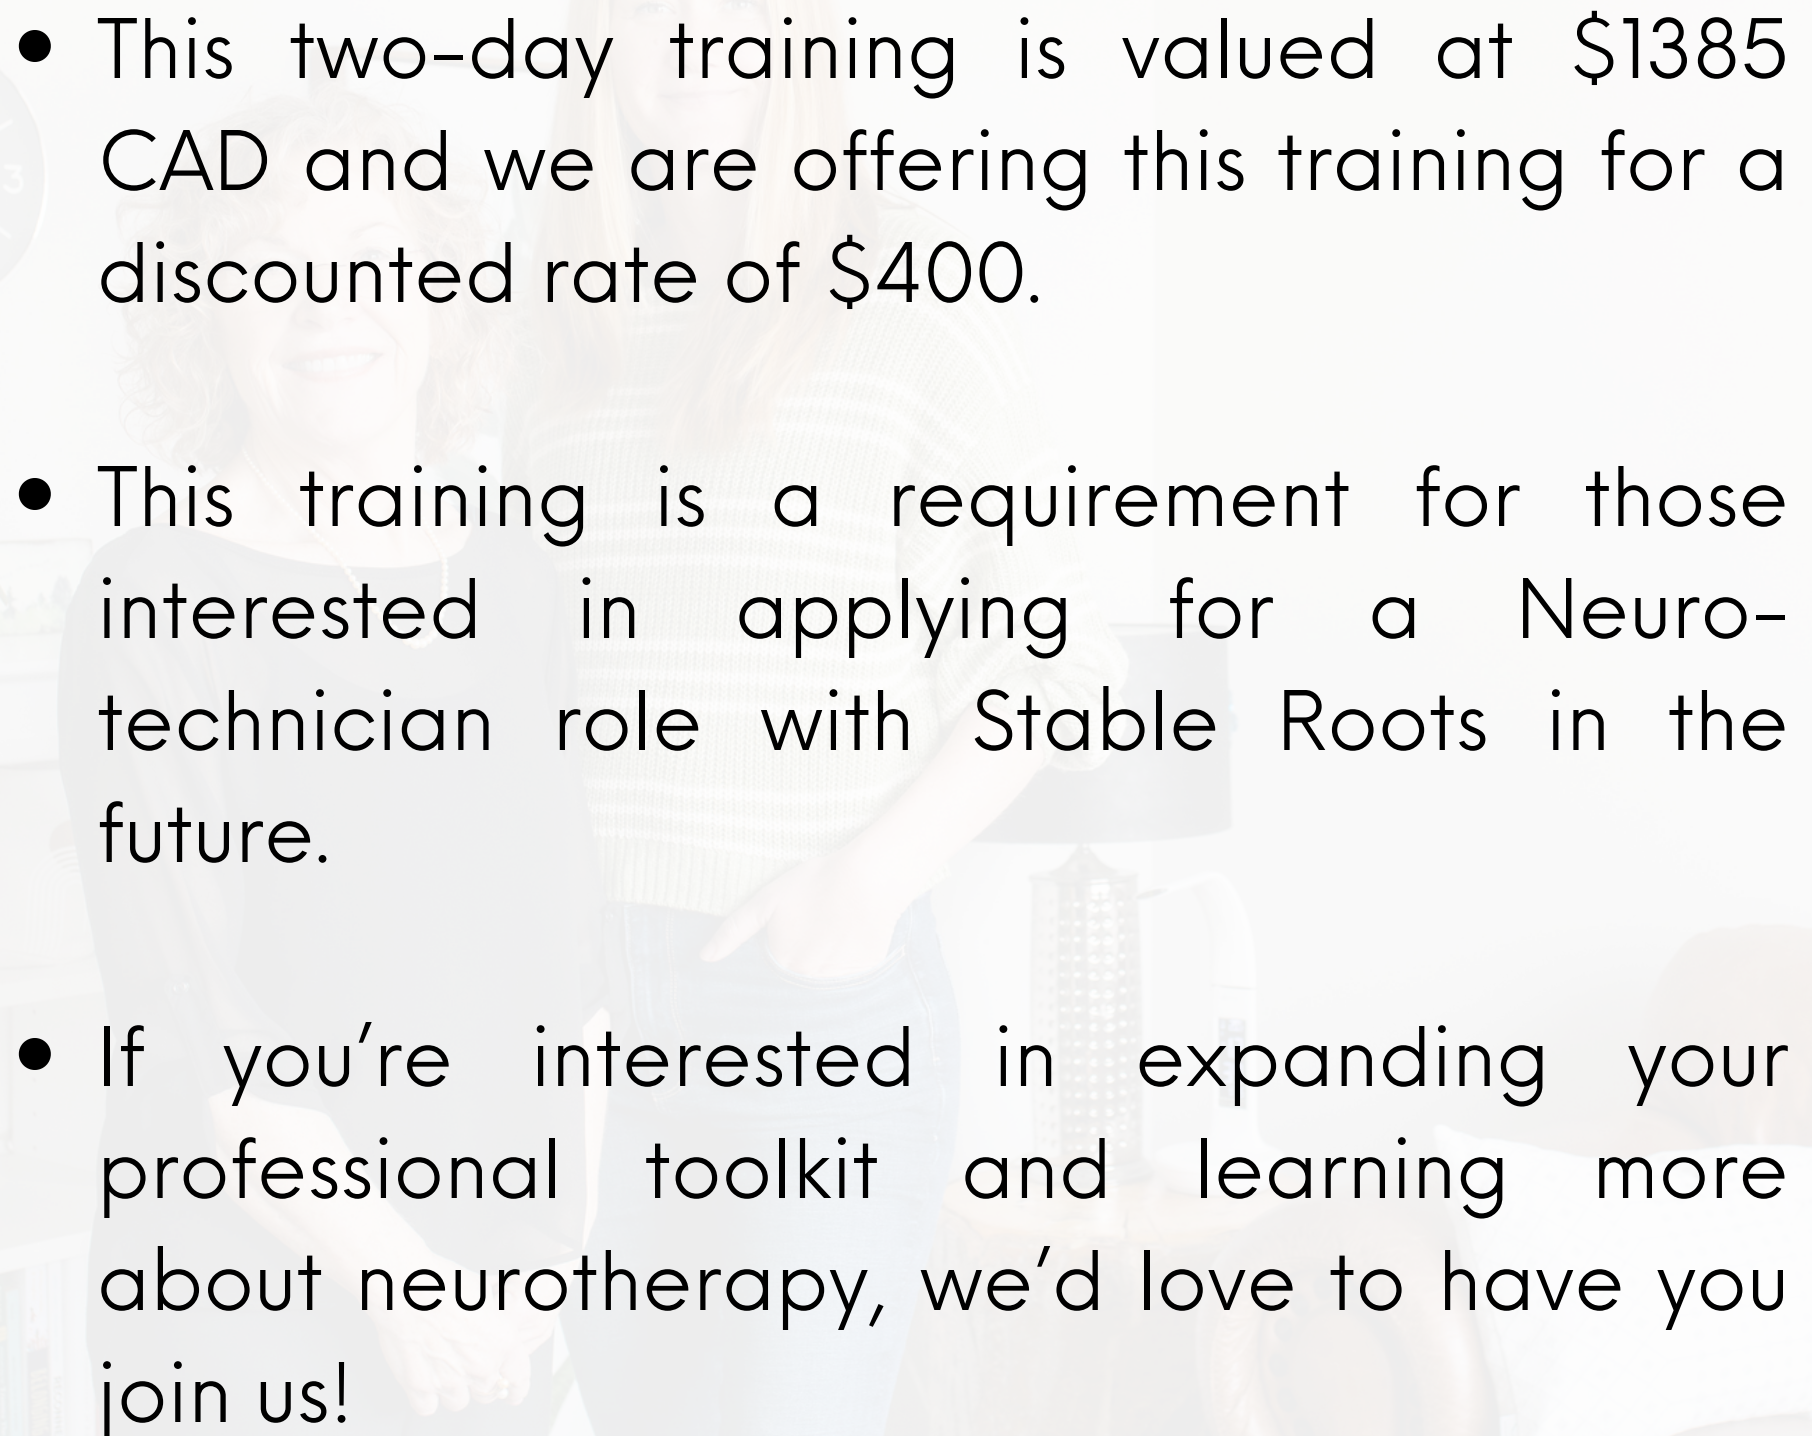

WHO IS THIS TRAINING FOR?

- Those Seeking to Work as a **Neuro-technician** – Gain the skills to assist in neurotherapy clinics.
- **Counsellors & Wellness Practitioners** – Those interested in an introduction to neurotherapy.
